-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The drawings were received on 11/26/03. These drawings are approved.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 5, 7-13, 15 and 16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Siegel, of record in view of either Kohn or Farkas.

Applicant's main argument is that the liner comprised walls and a bottom to define and enclosed container while the liner of Siegel is open at the end. However, removable liners which have enclosed ends are known in the art as taught by Kohn (note the design for the removable liner) and Farkas (note the removable enclosed container having 4 walls and a flat bottom). Therefore to have merely closed the ends of the liner of Siegel for ease of removing the items contained therein and strengthening the container would have been obvious in view of either Kohn or Farkas. Note the teaching by Siegel of either hook and loop or snap fasteners to secure various sized pouches to the walls of the liner.

3. Claims 6, 14, 18 and 20 rejected under 35 U.S.C. 103(a) as being unpatentable over the references as applied to claim 5 above, and further in view of Cantor, of record.

To have further provided pouches which are secured to the exterior of the housing, to prevent theft or injury from attempted theft, would have been obvious in view of such teaching by Cantor (note the snaps or hook and loop material 24).

4. Applicant's arguments, see page 12, the last paragraph and the first paragraph of page 13, filed 11/26/03, with respect to the objections to the claims and drawings have

been fully considered and are persuasive. The objections of the claims and drawings have been withdrawn.

Applicant's arguments with respect to claims 5, 11 and 14 have been considered but are moot in view of the new ground(s) of rejection.

Claims 5-16, 18 and 20 remain rejected while claims 1-4, 17 and 19 have been canceled.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bowers shows a system with an enclosed inner container having removable pouches. Smith shows a fastening system which permits pouches to be fastened both inside and outside of a bag. Brenner shows detachable containers on the exterior of a case. Briccola shows removable pouches secured inside a case.

Brandon, Jr., Steinhart and Eckstein show removable liners with at least 4 sides..

6. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a). The certification may be included with all correspondence concerning this application or proceeding to establish a date of mailing or transmission under 37 CFR 1.8(a). Proper use of this procedure will result in such communication being considered as timely if the established date is within the required period for reply. The Certificate should be signed by the individual actually depositing or transmitting the correspondence or by an individual who, upon information and belief, expects the correspondence to be mailed or transmitted in the normal course of business by another no later than the date indicated.
